Portfolio

RELEVANT SKILLS

- Machine Learning
- Computer Vision
- Python
- PyTorch
- Deep Learning
- NLP
- SQL
- FastAPI

PROFESSIONAL SUMMARY

- AI/ML and Data Science enthusiast pursuing a Bachelor of Engineering in Information Technology with hands-on experience developing end-to-end intelligent applications in Machine Learning, Computer Vision, and Full-Stack AI. Proficient in Python, PyTorch, FastAPI, and SQL, with a strong foundation in building scalable AI solutions, REST APIs, and data-driven applications.
- Passionate about applying Artificial Intelligence to solve real-world problems through continuous learning and project-based development.

PROJECTS

AI ATS Resume Analyzer | Python • FastAPI • REST APIs • JWT • spaCy • Docker 2024

- Architected a FastAPI backend using PostgreSQL, SQLAlchemy, JWT authentication, spaCy and Scikit-learn to build secure AI-powered resume analysis REST APIs.
- Built an interactive React dashboard enabling resume uploads, ATS score visualization, detailed skill-gap analysis, and personalized optimization feedback through an intuitive user experience.

QuantLens AI – Stock Market Research Assistant | Python, FastAPI, React, PostgreSQL 2024

- Developed an AI-powered stock market research platform using FastAPI, PostgreSQL and VADER Sentiment to analyze real-time financial news, market trends and company fundamentals.
- Implemented REST APIs with SQLAlchemy and JWT authentication for watchlist management, historical stock analysis and secure financial data retrieval.

Gym Mentor AI – Real-Time AI Fitness Coach | Python, OpenCV, MediaPipe, Streamlit 2025

- Built a real-time AI fitness coaching application using MediaPipe, OpenCV, NumPy and Streamlit for pose estimation, posture correction and live exercise tracking.
- Integrated SQLite-based workout tracking, progress analytics and Groq-powered coaching to deliver low-latency real-time fitness guidance.

NeuralArt Studio – Neural Style Transfer | Python • PyTorch • Flask • TorchVision 2025

- Implemented a deep learning-based Neural Style Transfer application using PyTorch to generate artistic images by combining semantic content preservation with convolutional feature-based style extraction.
- Designed a modular image processing pipeline supporting multiple artistic styles, configurable optimization strategies, and high-quality image synthesis for efficient experimentation and creative image generation.

TECHNICAL SKILLS

Languages: Python, SQL

Developer Tools: VS Code, Git, GitHub, Docker, Vercel

Frameworks: FastAPI, Flask, React, Streamlit

Databases: PostgreSQL, SQLite

Technologies/Libraries: Machine Learning, Deep Learning, Computer Vision, NLP, PyTorch, Scikit-learn, Pandas, NumPy, OpenCV, MediaPipe, spaCy

EDUCATION

LDRP INSTITUTE OF TECHNOLOGY AND RESEARCH

08 2023 – 05 2027

Bachelor of Engineering in Information Technology CGPA : 7.05/10.00

Gandhinagar, India

CERTIFICATIONS

- Python for Data Science - NPTEL (IIT Madras)
- Jul–Aug 2025
- 4 Week Course
